31st May 2021

Dear Parents/guardians,

You will all be aware of the Government's announcement with regard to the Expanded Summer Provision for pupils in special classes this year.

We know that it has been a very challenging time for your family with the closures both last year and this year. We are cognisant of how the absence of school and other supports has had a huge impact on your lives and wellbeing. Unfortunately, however, taking into account the fact that staff employed by the school are not available for any of the summer programme in 2021 and in light of the decision by the Board of Management not to pursue the recruitment of external staff for the programme, **Redeemer Boys' N.S. is subsequently not in a position to participate in the School-Based Summer Provision for pupils in our special classes in 2021.**

The Home-based strand of the Summer Programme may still be pursued and to this end we hope that you are successful in securing the services of a registered teacher or SNA. When the relevant application form is released for the home-based strand, it will be printed and sent home with your son/s (with the school section completed).

Thank you for your continued support,

Michelle Murray

Principal
